| SELF-MANAGED
SUPERANNUATION

Helping you establish and actively
manage your own superannuation.

Simplex Superannuation Services are independent providers of Self-Managed Superannuation Fund administration services. We help you establish and manage the compliance aspects of running your own fund.

We make it easy for you to manage your fund, so you can reap its long-term benefits. Putting ourselves in your 'trustee shoes', we relieve you of the day-to-day responsibilities so you can enjoy life, feeling secure about your future.

How are you going to fund your retirement?

Superannuation is not an easy topic to digest.

People often remain in retail superannuation funds because retirement seems so far away. Despite these funds appearing to be cheap and easy you may be relinquishing direct control over your investment and management of its potential returns. They also aren't always the cheapest option - larger fund balances tend to attract higher fees.

Establishing your own super fund allows you to directly control your investment strategy, potentially building a bigger nest egg for retirement. But as the name implies - self managed - means you are responsible for managing and are accountable for complying with the Superannuation Industry (Supervision) Act 1993.

However, establishing a fund doesn't have to be onerous or frightening. This is where we can help. We work with you, guiding you through each stage of managing your own fund -establishing it, meeting compliance requirements and providing technical assistance.

Stress-free super support

Managing your fund should be simple and stress-free, so you can focus on providing solid returns for your retirement. Our business, services and 'wearing your trustee shoes' approach are all structured to enable this.

We build strong, personal, connected relationships. Getting connected is an important process to us. We provide you with a personal Super Fund Manager, focused on this.

Our managers:

- Keep you informed of your fund's progress,
- Ensure your trustee documents are prepared in accordance with legislation,
- Notify you when you must attend to details,
- Arrange your annual audits,
- Explain your statements, and
- Help you access your funds when you chose to retire.

By connecting and working closely with your personal advisors we make sure we understand your situation and your strategy. If you don't have professional advisors, we connect you.

It's also important to be educated about Self Managed Superannuation Funds (SMSF). We equip you with knowledge so you understand the environment your fund is operating in and your legal requirements.

Helping you - 'wearing your trustee shoes'

Establishing a fund

We help establish your superannuation fund. We prepare trustee documents such as trust deeds, applications to the Australian Taxation Office (ATO) to become a regulated fund, tax file numbers and Australian Business Number (ABN). We also help document investment strategies.

Technical assistance

We assist you with technical matters. Answering your questions, such as:

- What age can i retire?
- What are my pension caps?
- What pension can i draw?
- How much tax will i be subject to? Etc.

On-going fund administration

We help manage the compliance of your fund, in other words help you keep your paperwork in order. We prepare annual financial statements, trustee paperwork, lodge your fund's tax return on your behalf and arrange your annual audit.

Accessing your fund - retirement and pension

When you are ready to retire we help you access your fund. With your retirement strategy in mind, we ensure you are compliant with legislation.

Superannuation advice

We are not licensed to provide advice, but we can introduce you to Knight Financial Advisors - our sister company - and they can provide you with a comprehensive strategy.

The extras

- We provide annual overview reports of key financial data relating to your fund.
- We provide annual pension notifications, ensuring you access or draw down your minimum pension requirements each year.
- We notify you of major corporate actions, so you can take appropriate and timely investment action.

Client stories

Reducing fees and creating wealth

Consolidating for simplicity

Upon retiring, our client had a superannuation fund of \$395,000 across three accounts. Acting on the advice of Knight Financial Advisors, they asked us to establish a SMSF. This enabled them to:

- Consolidate their funds, reducing annual administration fees from \$4,000 to \$2,400.
- Deposit \$200,000 without incurring any fee increases - with their pre-existing structure their fees would have risen to \$6,000 per year.
- Implement their investment strategy - focused on direct equity and fixed interest investments - generating annual franking credits of approximately \$9,200 a year. As the fund is in pension phase these are rebated to the client each year as cash.

This simple change of superannuation structure has enabled them to clear their administration fees and earn an extra \$6,800 annually for their pension.

Converting to a SMSF

Our clients run a manufacturing business from their own premises. Currently in their late 40's they had \$150,000 in a retail superannuation fund. To bring efficiencies to their business and superannuation their accountant advised converting to a SMSF.

We established their SMSF, transferring their premises' ownership and the \$150,000 into the fund. The SMSF was able to borrow to fund the property purchase and small business capital gains tax (CGT) concessions used to offset the CGT they would have otherwise owed.

Going forward, their rent, payable to the SMSF, is taxed at a maximum of 15%. Should they sell the property after 12 months their CGT liabilities would be taxed at a maximum of 10% or nil if the fund converts into 'pension phase'. We reduced their rates further by investing surplus funds into a diversified portfolio of shares and fixed interest investments, generating high franking credits.

Using a SMSF, our client has improved their overall asset protection, minimised tax and improved the long term growth potential of their assets to retirement.

We reduced their rates further by investing surplus funds into a diversified portfolio of shares and fixed interest investments, generating high franking credits.
